

RESTAURANT-HUNT IN SEVILLE

CAPSTONE PROJECT DESCRIPTION

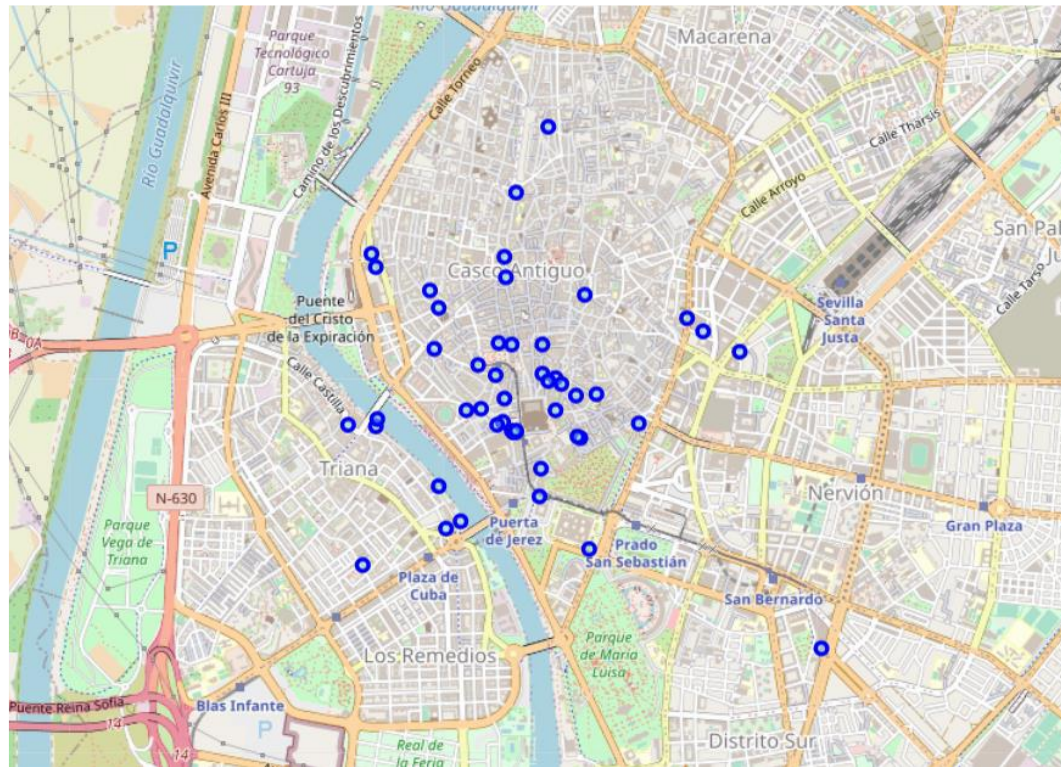

- The aim of this project is to make an analysis of the venues of the city of Seville, Spain. The analysis will be made based on the ratings of the venues
- Seville is a very famous and beautiful city of Spain which attracts a lot of tourism. It is such an historical city where a lot of cultures were mixed and used to live together in peace and harmony. It has lots of magical places to get lost through their streets and their people are actually open-minded and friendly.
- With this analysis, tourist will be able to select the restaurant that fits them the best in order to have a great experience since Spain is one of the countries with the best gastronomy in the world!!

DATA DESCRIPTION

- The data that will be used in order to make this analysis is the data provided by the Foursquare API. It will be necessary to make a proper data mining and selection among this data.
- The venues used for this study will be the ones in a 3 km radius from the center of the city of Seville, in Spain. In this way, tourist that would be visiting the city center could choose the restaurant they like the most..

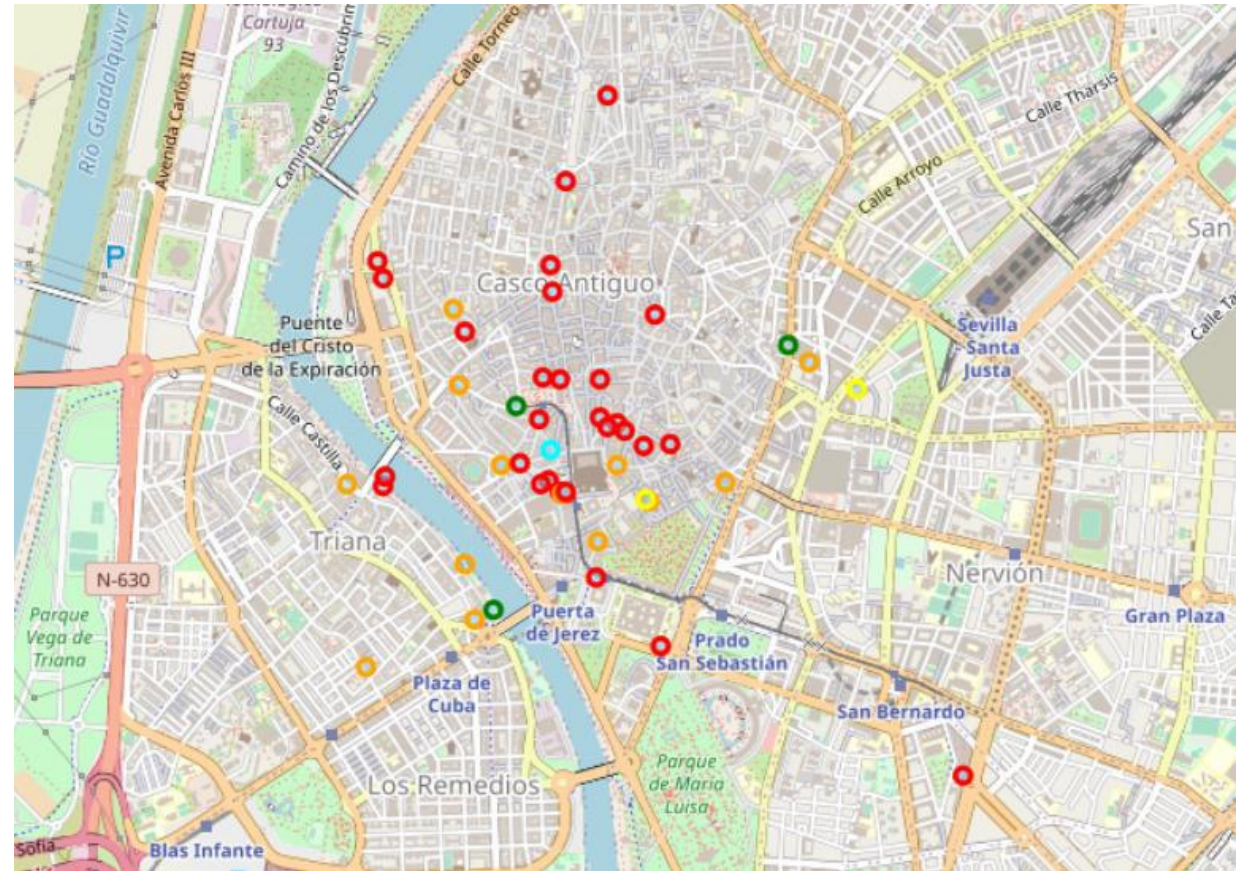

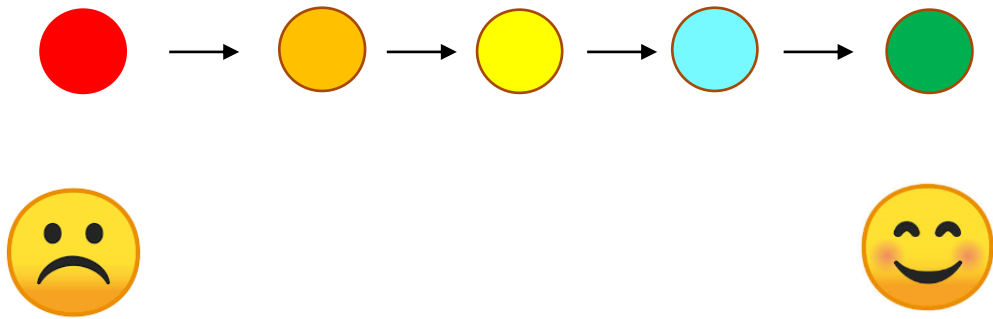

RESULTS

- This is the map of Seville with the restaurants within the 3 km radius
- The blue markers shown are the restaurants
- Later, the restaurants will be shown according to their rating

FINAL ANALYSIS

THANKS

A group of hands holding up large, colorful letters to spell out the word 'THANKS'. The letters are held by multiple hands, suggesting a collaborative effort. The letters are: 'T' (blue), 'H' (blue), 'A' (yellow), 'N' (blue), 'K' (black), and 'S' (yellow). The hands are of various skin tones, and the background is plain white.
